FRONT-END DEVELOPER

<div id="root">**Enthusiastic developer** with 2 years of experience freelancing in Kazakhstan and Croatia. Focused on designs that are mobile-first, functional and user friendly above all. function vanilla(JS), PWA's and accessibility in design. const learning = ['React', 'Typescript']. Extensive client management skills gained on multibillion-dollar international oil & gas projects in Russia and Kazakhstan. Synthesizer player and all things tech while not coding. Fluent in Croatian, English and Russian.<div/>

KEY SKILLS

- Semantic HTML
- CSS / SASS
- Mobile-first design
- JavaScript
- API implementation
- Progressive Web Apps
- GIT version control
- Communication
- Multilingual

EXPERIENCE

Freelancer, (Kazakhstan & Croatia)   2019 – 2021
FRONT-END DEVELOPER

- Developed custom websites from scratch using modern CSS techniques, with cross-browser compatibility and accessibility in mind.
- Wrote semantic HTML5, validated it, and paid attention to the best SEO practices.
- Implemented mobile-first approach to existing websites and often decreased loading times by 20-30%.
- Consumed API's using modern asynchronous JavaScript with Async and Await.
- Developed and marketed Progressive Web Apps, as a cheaper way for clients to get a native-like app.
- Wrote and optimized JavaScript to develop attractive user interfaces.
- Used Chrome DevTools for inspecting code, debugging JS and measuring performance with Lighthouse.
- Implemented recommendations from Lighthouse and learned from them.
- Used GIT and GitHub for version control and backup of my code.
- Used linters such as Prettier and ESLint to make sure my code is well formatted and readable.
- Used SASS to componentize my CSS and make it as reusable as possible.
- Collaborated with designers to make functional and attractive user interfaces and great user experience.
- Communicated directly with clients, and always found a satisfactory solution for everyone involved.

OOO "Velesstroy" „3GI", Chevron project, Tengiz (Kazakhstan)   2017 – 2019
HSE COMPLIANCE LEAD

- Supervised the construction of access roads and Chevron's camp facilities that inhabits 2000 people.
- Negotiated terms with local providers of safety trainings as well as medical and emergency services.
- Served as a liaison between Velesstroy and 8 of its subcontractors and managed HSE compliance issues.
- Chaired safety meetings and made reports and presentations on HSE results to the board of directors.

OOO "Velesstroy" „Yamal LNG" project, Yamal peninsula (Russia)   2015 – 2017
HSE OFFICER AND TRAINER

- Supervised a team of 4 HSE officers and coordinated their site activities.
- Facilitated incident investigations and ensured relevant information for insurance purposes.
- Achieved 10 million consecutive man-hours with zero recordable incidents.
- Conducted HSE awareness campaigns in the form of presentations and safety talks.

Protecta Horvat d.o.o. Bjelovar (Croatia)   2012 – 2015
